

March 18 2010

To Whom It May Concern;

We have worked with Mulhearn Wilson Constructors for the past few years, the majority being on a multi-phase multi-tenant project; The Riviera Condominiums. We contracted Mulhearn Wilson Constructors to finish-out 20 upscale luxury condominiums, as well as the surrounding pool, terrace and breezeway areas of the property.

With a multi-phase project of this scale, we have experienced the work of other construction companies and none match the service and quality of Mulhearn Wilson Constructors. From the beginning, we have had successful results and quick reaction from their team. They treated all involved in the project with respect and a firm belief that the customer deserves their best efforts. MWC will go to great lengths to meet challenges that come during a project, using all resources to come to the best solution.

We know we can count on MWC to continue the quality of service for future projects. We confidently recommend their company.

Sincerely,
